Why Tax Compliance Needs a Smarter Approach

NOTICE NINJA
DIGITAL NOTICE COMPLIANCE

Managing tax notices across multiple jurisdictions is overwhelming. With over 89,000 tax agencies in the U.S. alone issuing notices daily, manual processes are no longer sustainable. From compliance delays to growing penalties and resource strain, organizations are often left struggling to keep up.

NOTICE**NINJA** is here to help.

Our **Digital Compliance Platform** automates and centralizes all your notice management, including those not from an agency, empowering your team to focus on growth and strategic initiatives instead of chasing notices.

Understanding the Problem: Is Your Compliance Process Costing You?

If you're managing tax notices manually, you're likely facing these challenges:

Delays in Compliance: Notices sit unresolved, leading to escalating penalties, interest and reputational risks.

Growing Backlogs: With hundreds or thousands of unresolved notices, teams struggle to manage workflows efficiently and can't catch up.

Error Risks: Manual data entry increases the likelihood of errors, which can lead to compliance issues and inefficiencies.

Manual Processes: Skilled associates are often tied up with repetitive data entry, preventing organizations from leveraging their talent on strategic priorities.

Financial Losses: Penalties and interest pile up, while missed deadlines result in unnecessary costs.

Stakeholder Concerns: Clients and investors may question your ability to resolve issues promptly.

ASK YOURSELF

How much time is your team spending manually processing notices?
How often do unresolved notices lead to penalties, interest, or escalations?
What would it cost you if you lost stakeholder trust due to compliance delays?

"Notice Ninja makes life easier, penalties smaller, and provides real-time visibility to leadership."
Compliance Manager, Banking Industry

Defining Goals: What Does Success Look Like?

NOTICE **NINJA**
DIGITAL NOTICE COMPLIANCE

When evaluating solutions, it's important to define what you're looking to achieve.

COMMON OBJECTIVES

Save Time: Automate manual workflows to reduce time spent on notice processing.

Reduce Penalties: Ensure notices are resolved quickly and accurately to avoid costly fines.

Increase Visibility: Centralize compliance data for better reporting and decision-making.

Scale Effectively: Manage high volumes of notices across multiple jurisdictions without overwhelming your team.

NOTICE**NINJA** is designed to help you meet these goals, providing a seamless, automated solution that drives efficiency and reduces costs.

EVALUATING SOLUTIONS: WHAT MAKES NOTICE**NINJA** DIFFERENT?

NOTICE**NINJA**'s comprehensive platform delivers on what you need most:

Automate Manual Processes: Replace repetitive tasks like notice tracking and data entry with intelligent workflows.

Scale with Your Needs: Handle thousands of notices across multiple jurisdictions with ease.

Integrate Seamlessly: Connect to existing systems like Salesforce, iSolved, and PrismHR.

Ensure Security: Protect sensitive data with SOC II-certified security and robust role-based access controls.

Industry Knowledge: With over two decades of experience helping companies manage tax notices, we deeply understand your needs and deliver solutions designed to meet them.

How NOTICE**NINJA** Solves Your Challenges

The ROI of Automation: Saving Time, Reducing Costs

Implementing NOTICE**NINJA** doesn't just simplify compliance processes—it delivers measurable returns. Here's an example of what you can expect:

ROI Example

A payroll team processing 10,000 tax notices annually saved:

1,200 staff hours through automated workflows, reducing manual data entry and repetitive tasks.
$60,000 annually by reallocating staff from manual tasks to higher-value projects.
40% reduction in extra penalties and late fees, amounting to $15,000 in savings annually.

Payback Period

With an initial investment of $1,500 for setup and $16,000 annual platform fees:

The ROI payback period was under 5 months, with ongoing savings contributing to year-over-year cost reductions.

"By automating manual processes, our team has saved over 1,200 hours annually, reallocating time to higher-value projects."

How Charges Are Calculated

At NOTICE**NINJA**, our pricing is structured to align with your organization's size and needs, ensuring transparency and flexibility. Here's how it works:

PLATFORM FEE

A custom pricing model tailored to your organization's size and the volume of workflows you manage. This ensures you only pay for the scale of your operations while enabling growth as your needs evolve. *Custom Quote*

TRANSACTIONAL WORKFLOWS

Each plan includes an annual allotment of workflows, which can be used flexibly across various processes like tax notices, Power of Attorney (POA), amended returns, business registrations and no-agency notices. Additional workflows beyond the allotment are charged based on usage, providing cost predictability as you scale. *Custom Quote*

ONE-TIME SETUP FEE

This covers onboarding, initial configuration, and customization to integrate NOTICE**NINJA** seamlessly with your existing systems and processes.

PROFESSIONAL SERVICES

Includes data validation and training for your data model to ensure accuracy, scalability, and faster ROI. This service ensures that your workflows operate efficiently from day one.

INTEGRATION API/FEES

For organizations requiring integrations with systems like Salesforce or Office365, our custom API setup ensures seamless data connectivity and workflow automation.

This flexible structure ensures that every client receives a tailored solution that scales with their unique compliance and operational requirements. Once your organization is ready to proceed, we'll provide a detailed proposal outlining your specific costs and ROI benefits.

"NOTICENINJA tracks phone calls, follow-ups, and notes instead of keeping them on paper, saving us hours of manual entry."
